

The Coast

A scenic view of a coastal landscape. In the foreground, there is a grassy dune. The middle ground shows a sandy beach curving along the coast, with waves breaking on the shore. The background features a rocky coastline with cliffs and the ocean extending to the horizon under a clear blue sky.

Why do people go to the coast in the UK?

Which coasts have you visited?

What are the natural features that attract people to the coast?

Coastal Erosion

Coastal erosion occurs when the sea wears away the land.

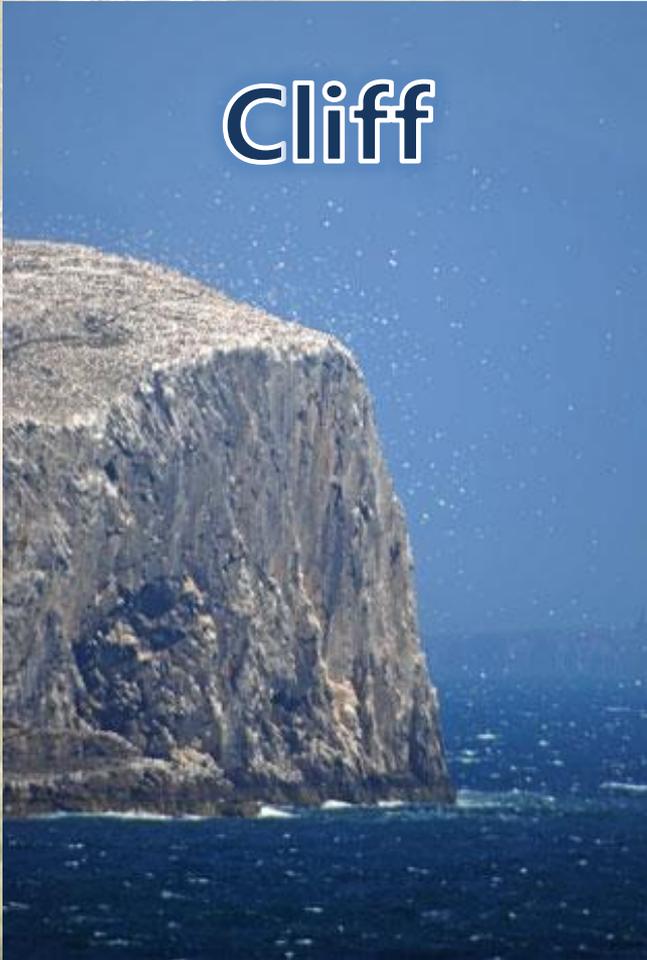

Over many years, erosion has caused different coastal features to form.
