

PSHE

To explore the contributions to our society by different groups of people.

Your task is to research at least three different groups of people in our society and explore how they contribute to the lives of people in their community. You may want to consider different key workers who are currently working to help others during the pandemic or else you can think more generally.

You can choose how to present your research. You may want to create a poster or perhaps you would rather write a speech thanking them for how they help our society.

If you're stuck for who to choose, have a look at the pictures below for some inspiration:

Make sure you include:

- Research of at least three different groups of people
 - What they do to contribute towards society
- How their actions make others in their communities feel

You can also consider:

- What would society be like without them?
- What is admirable about their actions?
