

# Doubles, Halves and Quarters

The background is a solid teal color. In the bottom right corner, there is a dark teal silhouette of a mountain range with jagged peaks.

Learning Objective:  
To solve problems

The background is a solid teal color. In the bottom right corner, there is a dark teal silhouette of a mountain range.

Let's look at number

4

What a special  
number!

Double 4 is.....

8

So half of 8 is 4

And a quarter of 8 is 2.

Let's look at number

6

What a special  
number!

Double 6 is.....

So half of 12 is 6

And a quarter of 12 is 3.

12

Task: Now use your knowledge of doubles, halves and quarters to complete the word problems.

Remember:

- Doubling is the same as adding the same number to itself.
- Halving is the same as sharing a number into 2 equal numbers.
- Quartering is the same as sharing a number into 4 equal numbers.
