

What to do

- Ask your child to look at each number pattern row and decide if they need to count in steps of 2, 5 or 10. Then help them to cut the numbers from the bottom of the sheet and glue them into the correct place in each row.

Ask your child if they can count on in steps of 2, from 0 up to 20, and write the steps on the back of this sheet. Can they count up to 30? Ask them to count on in steps of 5, from 0 to 50, and write these down. Then count in steps of 10, from 0 to 100, and also write these in order. Support them as needed, making sure that they record the numbers accurately.

	30		50	60	70
50		40		30	25
10		14		18	20
100		80		60	50
	10		20	25	30
12		8		4	2

Number patterns of 2, 5 and 10

Count on and back in multiples of 2, 5 and 10

- You will need:**
- scissors
 - glue
