# Solve addition and subtraction problems involving money

## Money magazine

You will need:

- scissors

### What to do

- Help your child to cut out the money magazine, and fold along the dotted line. Then work with your child to complete each page of their magazine.
- Involve your child in simple addition and subtraction activities using real coins, setting them tasks that involve adding coins to find a total, or calculating change. Set problems that involve addition and subtraction facts to 10 then 20.

Use 2 colours to show 2 different ways of making ...
