

# Division $TO \div O$ using the formal written method

Use the formal written method to calculate  $TO \div O$

Write the division fact for each number coming out of the machine.

1 33

2 54

3 72

1 Approximate the answer to each calculation.

Example

$$92 \div 4 \rightarrow 25$$

2 Find the answer to each of the calculations in Question 1 using the formal written method.

Example

$$96 \div 4$$

$$\begin{array}{r} \text{T} \quad \text{O} \\ 2 \quad 4 \\ 4 \overline{) 96} \\ \underline{4} \quad \quad \\ 9 \quad 6 \\ \underline{8} \quad \quad \\ 16 \\ \underline{16} \\ 0 \end{array}$$

Check your answers to each calculation in Challenges 2,3 using the inverse operation. Choose the method of multiplication you find the easiest.
