

# PSHE – FIRE SAFETY

**YOUR TASK THIS WEEK IS TO CREATE A FIRE SAFETY PLAN INCLUDING A MAP OF EXIT ROUTES.**

**If you are doing your work from home you can create a fire safety plan around your own house, but if you are in school you can use the school building.**

**Watch this video:**

<https://www.cheshirefire.gov.uk/young-people/escape-to-safety/games-for-children/fire-action-plan>

Try to remember what you already know about the school's fire safety plan. How can we develop this? Where do we start? You need to look at the process in the above video and then create your own. Create a plan and then present (in a film) as if you were telling the board of Governors at the school. How will you make it seem like a good idea? Do you have examples?

Remember where the best routes are and explain why.
