Computing — Movie Makers This aim of this unit is to allow you to explore various aspects of film-making. As you are at home, you can choose and use whatever is available in order to complete task. You'll need to write a script, researching information, filming and editing. As well as using digital devices for recording (video camera or tablet), children work through pre- and post-production stages, planning good-quality interviews for a documentary and completing the process with use of video editing software such as Windows Movie Maker Step 1 – Write a script or plan a storyboard

- Decide on what you are going to make a short film about
- It might be that you are going to animate your lego or a teddy
- Or you might choose to interview a family member about their job
- Or you might complete a mini documentary about something in your home
- Once you've decided plan, write a quick script of complete a series of questions
- Consider: Who? Where? When?

Step 2 – Research or Sources

- Make sure that you've researched the topic that you are going to film.
- What else do you need to find out?
- Plan your questions and sequences carefully, you might include photographs.

Step 3 — Filming — Use this checklist to help you to film.

- Before Filming (Checklist)
- Script or words.

- Location and background ok.
- Camera working and ready to record.

Be the Camera Operator

- Can you use a digital video camera (or other device) to record?
- Camera switched on and ready to record.
- Person being filmed ready?
- Ask everyone to be quiet.
- Count down: 3... 2... 1... and press record.
- Give a thumbs up to show you are now recording and ready for the presenter to speak or start interviewing.

Be the Presenter

- Can you speak clearly and confidently when being recorded?
- Get in position.
- Look smart and check your script.
- Look straight at the camera.
- Speak clearly and confidently.
- O Smile!
- After Filming
- Watch the recording to check it is ok.
- Did everything go as planned or does anything need to be re-recorded?
- Make sure you have filmed everything you need to before moving on to the next segment of your documentary.
