Headteacher: **Miss Esther Whitbourn**

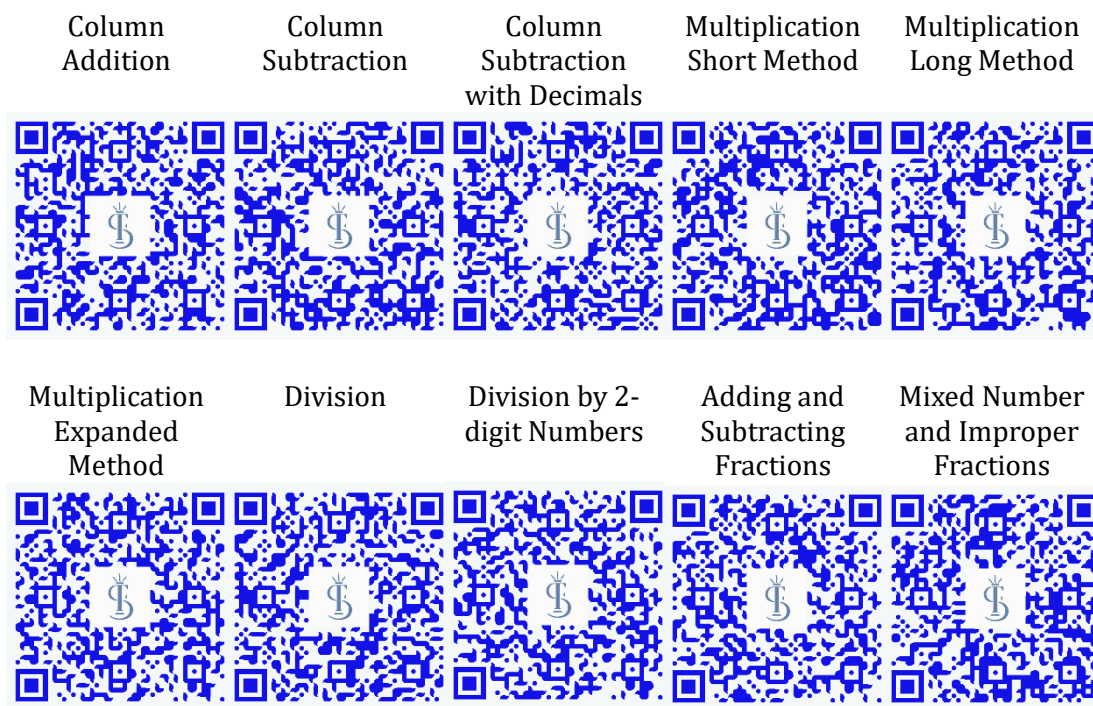

26th September 2023

Dear Parents,

As you know, Maths is a fundamental subject that lays the foundation for many future academic and career opportunities. It is essential that our children have a strong understanding of mathematical concepts and are able to apply them effectively. To support your child's learning in mathematics, we have decided to introduce Maths video tutorials for our parents and children. These tutorials are designed to supplement our existing maths curriculum and provide parents and children with additional resources to reinforce their understanding of mathematical concepts.

Designed and created by staff at South Farnham, these video tutorials align with our calculation guidance and feature a range of different mathematical concepts to support your child's learning. We encourage you to take advantage of these tutorials by watching them together with your child and discussing the concepts covered. You can access the videos by simply clicking, or scanning, the QR codes below.

We would welcome any feedback on these tutorials or suggestions for further tutorials, should they be required. Thank you for your continued support and partnership in your child's education. We look forward to working together to help your child succeed in mathematics and beyond.

Best wishes,

Miss Whitbourn
