

Dear Parent/Carer

Your local OFSTED OUTSTANDING (JULY 2023) primary and secondary teacher training provider

South Farnham SCITT is an innovative, industry leading, highly respected and well-established provider of Initial Teacher Training. Whilst we work across Surrey, Hampshire, Berkshire, East & West Sussex and London Boroughs of Sutton, Croydon, Kingston, Richmond and Hillingdon, we have a very local and personalised approach. Our programmes are lead by expert cohort leads, working with a geographical hub. They have exceptional knowledge and relationships with local schools, their mentors and support tutors to ensure that each trainee is afforded the opportunities and experiences to best support their individual development.

Our primary and secondary programmes have children and young people's best interests at heart. Working in partnership with our schools to develop best practice, exceptional teachers and the best outcomes for children across the region.

The very best place to develop highly effective teaching is in the classroom, supported by an **'exceptional team around the trainee'** (Ofsted), providing expert and skilful guidance for trainees. Support includes **excellent school-based mentors who 'have a deep understanding of how to support trainees and build on centre-based learning'** (Ofsted), as well as dedicated cohort leads and support tutors. Individual and highly personalised training enable trainees to develop and master skills in line with individual and progress needs. This ensures all trainees succeed and enter their ECT years ready to thrive and with a thirst to continually grow and develop. Weekly training sessions are held in local geographic hubs led by cohort leads and a team of expert educationalists.

Whether you are certain you want to train to teach, or if you are just interested in finding out more, we would love to meet you. We offer a variety of face to face and online opportunities to meet a member of the team to learn more and have your questions answered.
